	How did service in WWII strengthen Merrill's pride in his heritage and impact his career path?
<b>Contextual Paragraph</b>	<p>Merril L. Sandoval was born in a traditional Navajo hogan near Nageezi, New Mexico, on April 18, 1925. He mother's clan is Naasht'e`zhi` Dine'e` (Zuni-Edgewater Clan) and his father's is Tl'aaschi'I (The Red Cheek People Clan). His father, Julian, raised sheep on the family ranch and his mother, Helen, was a blanket weaver. Helen died when Merrill was 6, leaving a newborn sister. Julian remarried and Merrill grew up with many siblings and half-siblings. His great-grandfather was a Navajo medicine man who taught him traditional ways.</p> <p>Merril and his older brother Samuel were attending high school at the Navajo Methodist Mission School at Farmington, New Mexico, in 1942. The recent attack on Pearl Harbor launched the nation into WWII and Marine recruiters were visiting the campus. Samuel, then 18, signed up. Although recruiters took soldiers as young as 16, Merrill, nearly 17, was still too young without parental permission. When recruiters again visited campus in 1943, Merrill was within weeks of his 18<sup>th</sup> birthday. His father gave consent, telling Merrill to bring his brother home.</p> <p>Although both Samuel and Merrill were Marine Code Talkers, they had no contact with each other while in the service. Early Navajo recruits like the Sandoval brothers at first had no idea that they were being recruited for their native language skills. Ironically, their mission school, like other Indian boarding schools, punished students for speaking their native language. It was the knowledge of this forbidden language that eventually helped the United States achieve victory in WWII.</p> <p>Merril was at boot camp in San Diego, California, and then at Camp Pendleton at Oceanside for radio communication and rifle training. From there he went to Camp Tarawa in Hawaii to train for the Pacific campaign, serving in the 2<sup>nd</sup> and 5<sup>th</sup> Marine Divisions in the Hawaiian Islands, Saipan, Iwo Jima and the occupation of Japan. Merrill's job as a Code Talker was to receive, translate, and send coded messages</p>

	<p>behind the front line of battle. Because the Navajo language was not a written language and unknown to the enemy Japanese, it was impossible for them to decipher.</p> <p>Merril was discharged from the Marines in 1946, finished high school and trained as a machinist at the Haskell Indian Vocational School in Lawrence, Kansas. He married Lorraine Humetewa Shingoitewa in 1951 and together they raised five children. Merrill worked as a machinist before returning to the Navajo Reservation in 1963 where he joined the Navajo Tribal Police. After three years, he became an advocate for the Navajo Nation’s legal service. Retiring after 23 years, he continued to serve as a tribal advocate and tribal court interpreter. He also traveled extensively, speaking about his experiences and advocating for Indian people.</p> <p>Merrill received the Silver Congressional Medal of Honor along with other Navajo Code Talkers in 2001. He died in 2008.</p>
