Contextual Paragraph	<p>Linda Woods is an advocate and example of service; she discusses the idea that Native Americans feel responsibility to this land which contributes to their high participation in the military. She says they feel that they should go to great lengths to protect it. Natives are honored at every Powwow and considered warriors, even the women. Linda has a difficult childhood and home experience growing up. She didn't want to stay in her town and couldn't afford college. A friend's mother served in WWII, and she admired her. She was inspired by this friend and her dad who had served in WWII, so she decided to enlist. The Air Force appealed to her because she wanted to fly. Linda enlisted and was bussed from Traverse City to Detroit where she was sworn in and inducted into the Air Force. She did her basic training at Lackland Air Force Base in San Antonio, Texas. They didn't send many women overseas in the Vietnam War and she served stateside. She was sent to Barksdale Air Force Base in Louisiana where the elite US Air Force teams were housed. She worked as a switchboard operator with the other members of her squadron. In the 1960's when the Civil Rights Act was passed, she was working in the south where the bathrooms and water fountains were labeled "white" and "colored". She would ask where she should go because she wasn't either. The blatant racism was very difficult for</p>

	<p>her to see and experience. Linda's most memorable experience happened when she heard Kennedy was shot. She came into the barracks where they announced it over the loudspeakers and the base went into red alert. As part of a SAC base, their top priority was to be ready for anything. It was a scary time. Women were not allowed to serve in combat during her service. She did complete basic training but could not be in a combat position. Linda married a fellow soldier and moved to Sacramento, then Oakland and got a job in San Francisco. She worked for Western Union and used her Air Force switchboard training to get that job. She was also able to get her first house using GI benefits. Linda used the GI Bill to pay for her schooling. She has a Master's Degree in social work and works as a Social Worker and Director of Substance Abuse. She joined the American Legion and serves as secretary. She was inducted into the Michigan Women's Hall of Fame and works to memorialize and focus on the strengths that veterans bring to the country and her community. She is a charter member listed in the Women in the Military Memorial in Washington DC in the Arlington Cemetery.</p>
